

INFINIA

QUALITY POLICY

Quality and Safety targets of INFINIA ENGINEERING; INFINIA ENGINEERING is a successful and growing company that makes positive contributions to the environment and economy by producing safe and quality products in national and international standards based on safety, quality management and service understanding, improving the existing product safety and quality system by ensuring the continuity of reliability and development, ensuring that our employees work in safe conditions is to create jobs.

The basic principles of our Product Safety, Quality, Occupational Safety and Environmental Policy are:

- ✓ To ensure that all of our products comply with human and nature safety requirements and legal regulations at all stages from the supply of inputs to their use, and to follow the legal regulations constantly, to fulfill the requirements of the relevant Turkish laws and regulations,
- ✓ Documenting and continuously improving our quality management system to meet the requirements of ISO 9001:2015, ISO 22000, FSC and BRC standards,
- ✓ To apply the philosophy of continuous improvement in every field in order to increase the efficiency of all our processes to a level that can compete at the international level in line with the continuous improvement approach (incentive to use the KAIZEN program),
- ✓ With Hazard and Risk Analysis, in the process from the supplier to the customer, to identify possible dangers and to provide "Safe Product" to our customers by taking the necessary precautions against these dangers,
- ✓ To ensure the satisfaction of our employees, which is the main element of our success, to organize practices and trainings that will improve their knowledge and skills, to make being sensitive to quality and the environment a way of life for all our employees,
- ✓ To ensure that our products comply with INFINIA ENGINEERING's high standards, meet consumer needs and expectations, and are constantly improved in accordance with the changes in the market,
- ✓ To evaluate our customers, suppliers and our company as a business partner as a whole in order to be a reliable and sought-after company in an understanding that fully meets the needs and expectations of the customer in all processes,
- ✓ In order to provide our customers with safe, quality and economical products, to make the necessary investments by constantly following the technology and to share our knowledge and experience, as INFINIA ENGINEERING, that we have in the energy, defense and other related electrical and electronic sectors, with our customers who are also manufacturers,
- ✓ To determine corrective approaches that will improve our performance by reviewing our business processes,
- ✓ To ensure the health and safety of our employees, interns, service providers and visitors at the workplace and during working hours by fulfilling all legal responsibilities regarding Occupational Health and Safety.
